Occupations

The occupations pillar is one of the three pillars of ESCO. It organises the occupation concepts in ESCO. It uses hierarchical relationships between them, metadata as well as mappings to the International Standard Classification of Occupations (ISCO) in order to structure the occupations. Each occupation concept contains one preferred term and any number of non-preferred terms and hidden terms in each of the ESCO languages.

Each occupation also comes with an occupational profile. The profiles contain an explanation of the occupation in the form of description, scope note and definition. Furthermore, they list the knowledge, skills and competences that experts considered relevant terminology for this occupation on a European scale.

In ESCO, each occupation is mapped to exactly one ISCO-08 code. ISCO-08 can therefore be used as a hierarchical structure for the occupations pillar. ISCO-08 provides the top four levels for the occupations pillar. ESCO occupations are located at level 5 and lower.

0. Armed forces occupations

1. Managers

2. Professionals

3. Technicians and associate professionals

4. Clerical support workers

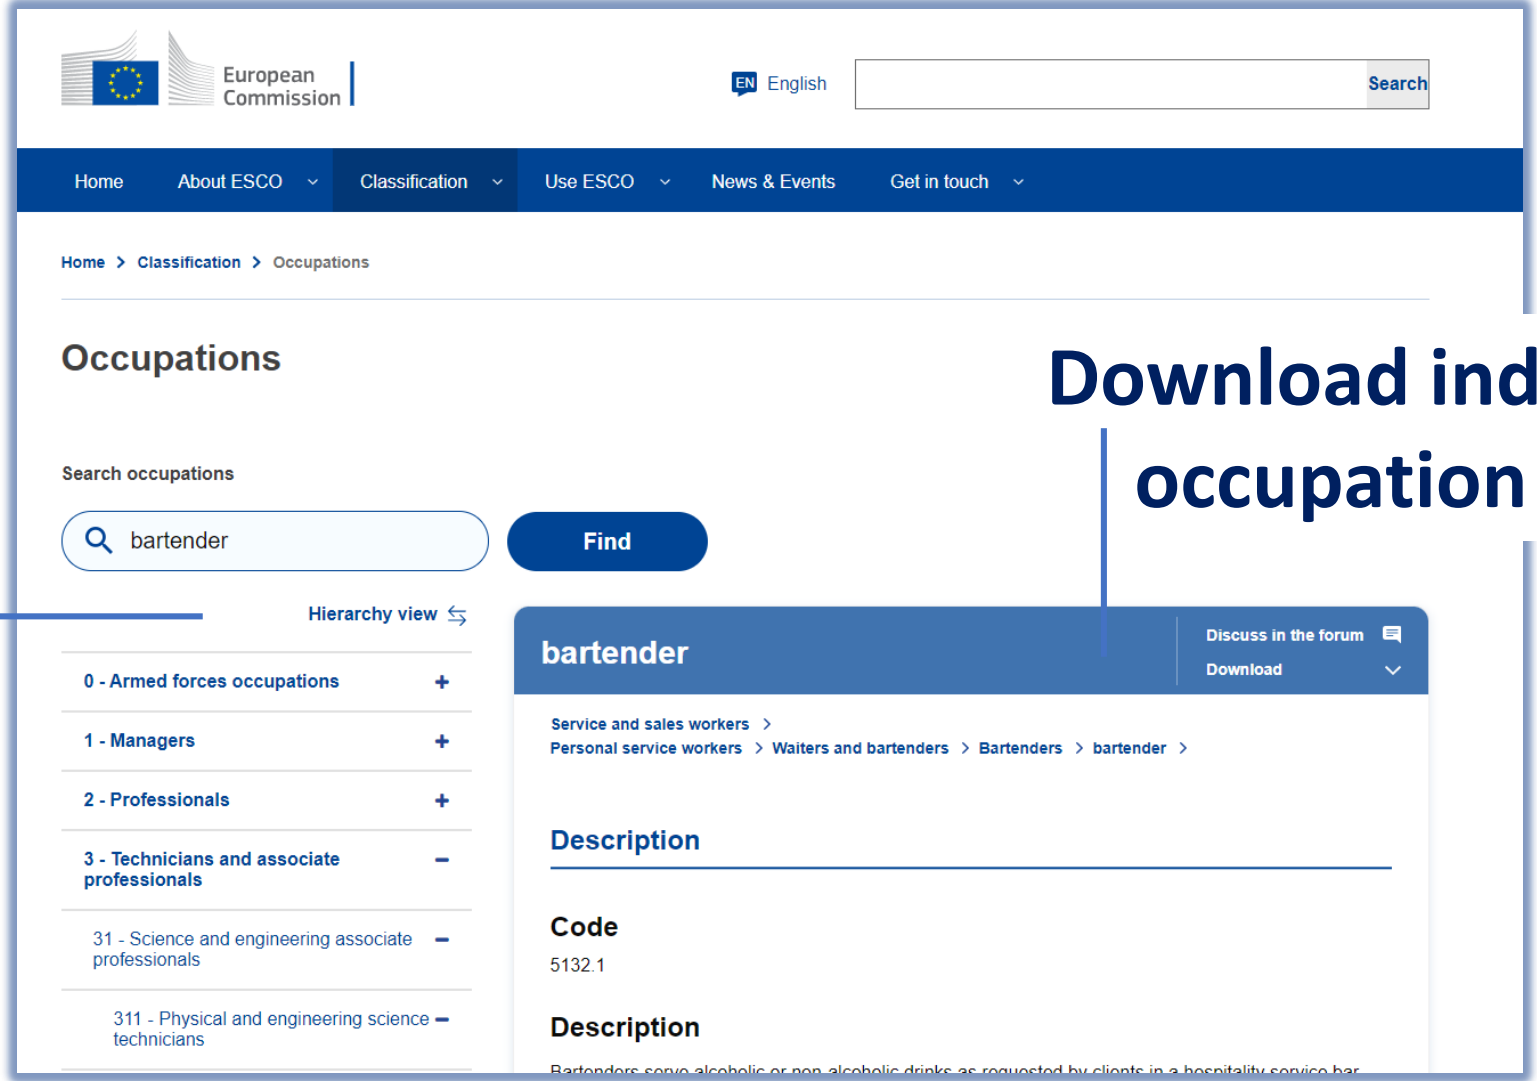

5. Service and sales workers

6. Skilled agricultural, forestry and fishery workers

7. Craft and related trades workers

8. Plant and machine operators and assemblers

9. Elementary occupations

## Download

### Download ESCO

ESCO can be used by developers as a building block for different types of applications that provide services such as autocomplete, suggestion systems, job search algorithms and job matching algorithms. The ESCO classification is composed of modules that contain elements such as occupations, knowledge, skills and competences, qualifications, and the International Standard Classification of Occupations (ISCO) hierarchy. When combined and interrelated, these modules make up the whole classification. Here you can select your modules and can prepare your custom package of datasets of the ESCO classification to download.

# Load different major ESCO versions

# Advanced search functionality

The screenshot displays the ESCO (European Skills, Competences, Qualifications and Occupations) website interface. At the top, the European Commission logo is on the left, and a language selector (EN English) and a search bar are on the right. A dark blue navigation bar contains links: Home, About ESCO, Classification, Use ESCO, News & Events, and Get in touch. Below this, a breadcrumb trail reads 'Home > Classification > Occupations'. The main heading is 'Occupations'. To the right of the heading is a dropdown menu labeled 'Select an ESCO version' with 'ESCO dataset - v1.0.7' selected. Below the heading is a search bar labeled 'Search occupations' with the text 'Professionals' entered. To the right of the search bar is a blue 'Find' button and a link 'Hide filters ^'. Below the search bar is a 'Filters' section with a 'Clear filters' link. The filters include: 'Concept Type' (Occupation), 'Status' (Published), 'Labels' (Label 1, Label 2, Label...), 'ISCO code' (All ISCO codes), and 'NACE code' (All NACE codes). There is a 'See all filters' link and an 'Apply' button at the bottom right of the filters section.
